VERTEC CASES

The JBL-VERTEC-SYS1 case is an innovative transport solution for the VerTec Subcompact Series Line Array loudspeakers and accessories. The case system includes a rugged outer molded cover with large twist latches and spring-loaded lift handles, two molded caster boards with provisions for 4886 and 4883 cabinets, and a hardware storage tray with integrated array frame storage cradle. These components are manufactured from highly impact-resistant and lightweight molded linear, low-density polyethylene. The properties of molded polyethylene provide a high strength-to-weight ratio that results in weight savings of more than 50% over traditional wooden flight cases. The specialized materials and efficient, multi-functional design of the JBL-VERTEC-SYS1 case increase ease of use and productivity while eliminating the weight and bulk of standard cases.

More than just a shipping case, the JBL-VERTEC-SYS1 is purpose-built for maximum application flexibility with features that adapt to multiple array configurations. Designed with rental companies and touring sound professionals in mind, the JBL-VERTEC-SYS1 allows customizable loading configurations to fit almost any portable sound reinforcement format, all using standard supplied case components. The JBL-VERTEC-SYS1 adaptable and compact footprint combines to create a new standard platform for the transport and storage of VerTec Subcompact Line Array systems.

Configurations
"A, B, C" with Standard Case

A
4886 (x6) + AF

B
4883 (x2)

C
4883 (x3)

Product Features:

- Truck-pack exterior dimensions in both USA 30" and European 31.5" [800 mm] standards
- Interlocking caster board design enables line array configuration and suspension hardware linking while on ground
- Molded foot grooves on caster board align and securely position speaker cabinets using the grille bumpers on 4886 / 4883
- Molded Hardware Tray with Integrated Array Frame Cradle provides secure storage inside case for 4886-AF, cables, clamps, etc.
- Heavy-duty swivel casters with reinforced mounting plates, field-replaceable design
- No assembly required, ready to use out of the box
